## **Vision Statement:**

*Ouachita Parish School System:  
Committed to Academic Excellence for ALL Students!*

## **Mission Statement:**

*Through collaboration among all stakeholders,  
the Ouachita Parish School System will ensure that all students attain  
the knowledge and skills needed to be productive citizens.*

## **Philosophical Beliefs:**

*Every student will learn, therefore, each student must be provided  
challenging instructional methods, materials, and experiences  
in the most appropriate learning environment.*

*A safe learning climate should be provided wherein the student can develop  
a positive self-concept, self-direction, and a sense of personal responsibility.*

*Every preschooler should be provided equal access to developmentally  
appropriate learning opportunities which ensure readiness for school.*

*Learning experiences for every student should include the four areas of  
development: cognitive, social, physical, and emotional.*

*The secondary curriculum should include a wide range of vocational courses,  
thus preparing the non-college bound student for the workforce.*

*Alternative instructional settings should be provided  
for students with unique learner needs.*

*Schools, families, businesses, and communities should forge active partnerships to foster  
the academic success of children and to collaborate in planning for school improvement.*

*Encouragement and support should be provided by all active partners to  
educators as they continue their professional development.*
